Dear Mr. Brown:

This correspondence accompanies samples collected from Feature 23 and Feature 38 identified during archaeological investigations on November 21 and December 21, 2015, respectively. The samples were collected pursuant to the NITHPO memo dated November 10, 2015 (attached).

If you have any questions or require additional information, please don't hesitate to contact Deborah C. Cox, President, or me at your convenience.

Respectfully,

Alan Leveillee, RPA

Re: Warwick Sewer Authority (Tidewater Drive)

Please be informed that NITHPO would like radio-carbon dating and extraction of DNA on the human remains found in feature 23 on Tide Water Drive, Warwick, Rhode Island, on 11/19/15.

Please note that this will be the standard process going forward on any/all human remains found.

The data recovery will be for the Tribe's eyes only and in specific NITHPO's leadership.

Regards,

Nancy Brown Garcia
